New Hampshire Electronic Recycling Ban

What Can – and Can't – Go in the Trash

Many electronic devices contain hazardous metals such as lead, mercury, cadmium, and silver. When disposed of improperly, these materials can contaminate soil and water and pose risks to people and wildlife. **New Hampshire law bans certain electronics from disposal in the trash or landfill.**

Use this guide as a quick reference.

BANNED FROM DISPOSAL <i>Must be recycled</i>	EXEMPT ITEMS <i>Not considered electronic devices unless removed from larger equipment</i>	RECOMMENDED FOR RECYCLING
Computers, laptops, monitors, tablets	Motor vehicles and parts	Routers
Keyboards, mice, external hard drives, speakers, etc.	Electronics that are part of industrial, governmental, commercial, or R&D equipment	Electronic typewriters
